

## Kabin247 App Fixes

Disable sending clients login and passwords. We will roll out that feature at a later time. Only those created as employees for Kabin247 order management should receive going forward. May need to separate user type " Client ", " Staff "

Unable to enter and exit client profile to save other data without entering address.

### COLUMN ARRANGEMENT

At A Glance:

Are we able to reduce space between Columns view? A bit Too Spaced Out.

### REORDER:

- DASHBOARD - Left to Right

Priority

Order Status

- Add " Delivered/Comped "

Client Name
